

## Standard & Poor's Announces March Quarterly Rebalance to the S&P/ASX Indices

SYDNEY, Mar. 5, 2010 – S&P Indices, the leading provider of equity indices in Australia, announced today that the following constituent additions and deletions will take place in the S&P/ASX indices, effective after the close of trading on Mar. 19, 2010.

At the March quarterly review the entire S&P/ASX index suite is rebalanced, which includes the All Ordinaries Index. The quarterly rebalance considers the aggregate market capitalisation and liquidity of stocks for the preceding 6-months as a basis for eligibility.

“The March quarterly rebalance saw limited index portfolio turnover at the top end of the S&P/ASX index suite. Index inclusions and exclusions across the S&P/ASX 200 index hierarchy were concentrated in the Industrials and Materials sectors, with these sectors representing over 70% of the turnover.” said Guy Maguire, Head of S&P Indices Australia. “In the S&P/ASX 300, Consumer Discretionary and Materials stocks featured prominently as inclusions; stocks from the Materials sector dominated the inclusions into the All Ordinaries making up half of the additions.
