Hillside Mining Lease – Extension Granted

Rex Minerals Limited (REX) announced on 29 July 2014 that it had received a formal offer of mineral tenements (Mining Lease) from the South Australian Government for its Hillside Copper Project, on the Yorke Peninsula. Rex has applied for and has now been granted an extension of time in accepting the Mining Lease.

The offer is a very detailed document. In view of this in conjunction with the recent resignation of the CEO and other developments, this extension should be viewed as Rex ensuring that such an important document covering the Mining Lease's operating conditions meets the respective needs of shareholders and also the community.

Rex remains focussed on developing a large scale copper-gold-iron ore mine at Hillside and so wishes to ensure that even with a smaller scale start-up option, that it will have security of access for the larger development.

Rex is continuing to work with the state regulator towards the granting of the Mining Licence for this scale of Project.

For more information about Rex and its projects please visit our website www.rexminerals.com.au or contact:
